Start filling out the registration form at our website. Do not forget to read the "active participation conditions" first!

Oral Presentations

Poster Presentations

Basic Science Experimental Original Studies Category

It includes in-vitro experiments, animal studies, randomized controlled trials.

Observational Original Studies Category

It includes case control studies, cohort and cross sectional studies.

Society and the Determinants of Health

It includes observational (quantitative and qualitatively) and intervention-type original studies which are related to the topic of the factors that determine public health.

No scholarship support will be provided to groups competing in this category.

Public Health Observational Category:

The researches in this category will be presented in a single session.

Patients and Diseases Observational Category:

The researches in this catalog will be presented in 2 sessions due to the number of groups. Results will be evaluated together.

Case reports, case series, reviews, meta-analyzes, lecture-type presentations and posters **will not be accepted**. Original research involving participants is accepted.

Front Referee Evaluation

The summary text of your research you send is taken into pre-editorial evaluation by 3 different scientific team members. After the evaluation, the request for acceptance / correction in the text is notified to the researcher within 1 week.

Scientific Committee Evaluation: 4 May 2021

Your research is evaluated by 5 different scientific team advisors. After the evaluation;

- Acceptance / correction request / rejection
- Acceptance of the research in the form of an oral presentation / poster presentation.

It is reported to the researcher within **48 hours**.

Objection, receiving withdrawal requests or making text corrections
You can do it until May 6, 2021 at 23.59

MaSCo'21 Marmara Student Congress'21 (28-29-30 May 2021)
